

The last water heater you will ever buy!

MVEA can sell this clean, safe water heater to our members for cost and give you an energy credit!

Marathon®

- Warranted not to leak for as long as you own your home
- Envirofoam insulation allows only 5-degrees heat loss in 24-hours
- Inner tank cannot rust or corrode
- Tough, but lightweight polyethylene outer shell
- Self cleaning

For more information give us a call at 719-495-2283, 719-775-2861 or 1-800-388-9881.

Do you have an electric hot water heater? Become a Power Partner

As we become more conscience of our energy use and its effects on our environment, it would be a great time to become an MVEA Power Partner. The Power Partner Program can:

- Help reduce the peak demand for electricity
- Help maximize energy efficiency
- Prolong the need for new power plants

To become a power partner, your home or business must have an electric water heater. A few times a month for short periods, we interrupt the service to your hot water heater. Most members never notice. You will be credited \$3 per month and we will install the controller on your water heater for free.

Give us a call or go to MVEA's web site if you would like to join the program and become an energy saver.
